Introduction

The maps contained in this collection are the result of close co-operation between the International Foundation for Electoral Systems (IFES) and the Myanmar Information Management Unit (MIMU). The information for electoral constituencies, for election results - including figures for turnout, invalid votes, numbers of candidates per constituency, advance votes and transferred votes - and for areas where elections were cancelled for security reasons, is based on information from the Union Election Commission (UEC).

The UEC determines the boundaries for electoral constituencies on the basis of the existing legal framework i.e. the 2008 Constitution and the 2010 Electoral Laws. Pyithu Hluttaw constituencies follow the administrative boundaries of townships (total 330). The 12 Amyotha Hluttaw constituencies per State/Region are determined on the basis of population statistics (total 168). For State/Region Hluttaw constituencies, every township is split in two, and population statistics are also used here to delineate the boundaries.

With few exceptions, the principles of contiguity and of following existing administrative boundaries (of townships, wards, and village tracts) are applied to draw the boundaries of constituencies across all levels of Hluttaw. The 8 townships of Nay Pyi Taw do not elect Region representatives (they are governed by the Nay Pyi Taw City Council), resulting in the overall number of electoral constituencies as follows: 168 Amyotha Hluttaw, 330 Pyithu Hluttaw, 644 State/Region.

It is important to note that constituency boundaries for state/region Hluttaw constituencies are only indicative due to the technical complexity of accurately drawing ward and village tract boundaries for all areas of the country.

Most of the maps in this collection are produced as A3 maps and can be printed in A4, A3, and PDF format. Some of the maps have been developed as AI and not all detail may be visible in the A4 format used in this booklet. All maps are available as separate digital copies from these sources: <http://www.themimu.info/election> and <http://www.merin-online.org/maps>

Political Party Representation Before Elections 2015

The boundaries of State/Region electoral constituencies (2 per township) are defined by the Union Election Commission on the basis of population figures. Due to technical difficulties to draw some ward and village tract boundaries correctly, the constituency boundaries shown in this map are indicative only. Some reserved forest areas have not been included in electoral constituencies. Note that this map shows only elected representation per constituency, but not the elected Ethnic Affairs Ministers and not the number of military appointees in the State/Region Hluttaws.
